Division Memorandum No. 770 .s.2016

### MOBILE SCIENCE EXPOSITION

To:

Assistant Superintendents

**Education Supervisors/ Coordinators** 

District Supervisors/OICs

Elementary and Secondary School Heads

Heads, Private Elementary and Secondary Schools

- 1. Attached is a letter from Madam Lailane P. Antonio, Marketing Associate, KP Kaunlarang Pangkabataan Production, Sticking Point Vision 2020 production dated November 24, 2016, entitled, "Mobile Science Exposition".
- 2. Students and teachers are encouraged to learn and advocate science through awareness on Science and Technology. This is, however, purely voluntary for public and private schools in the Province of Cebu.
- 3. Immediate and wide dissemination of this Memorandum is desired.

RE:

**MOBILE SCIENCE EXPOSITION** 

Dear Mr/Mrs. Anglud,

Greetings from Kaunlarang Pangkabataan and the Sticking Point Vision 2020 Production!

May we bring to your good Division School a series of Mobile Science Exposition billed as Vision 2020 on Science and Technology for the year 2016-17. This company is a youth oriented group that focuses on inspiring student to their Dream and delivering purpose driven Science.

This unique event brings viewer a fun filled science concept with a dynamic interactions that last for one hour and a half (1 ½ hour) programming. This conveys Science Curriculum topic from Grade 4-10 and also focuses on understanding and adaptation to Climate Change.

This event, has a consideration of Php 50.00 per viewer and it requires a parents' consent before they can view the program. To have this event successful, we will need at least 75% of student enrollees in your school division as our viewer to deliver our mission in Science Advocacy and bring up the Pride of the Filipino Inventions and Innovations.

Please find attached details of the event for guidance of the program partners.

Sharing this opportunity would mean a lot to all of us as we uphold science advocacy towards global competition.

Sincerely yours

Lailane P. Antonio Marketing Associate

09188508439

### KAUNLARANG PANGKABATAAN PRODUCTION STICKING POINT VISION 2020 production

### **INTRODUCTION**

### "Imagination is more than knowledge" Albert Einstein

Science and technology should be learned in the most interesting way. In order to achieve this, a mobile on the stage format science exhibition is organized with the aim to stimulate the creativity on science of the community in this area.

This exhibition will deliver a practical science concept with values integration for one hour and a half viewing. This will be presented in a hilarious mind twisting science approach. Thru this, students can easily adopt deep impression and impact on the technological advancement from before to nowadays industrial revolution. It is designed for indoor community hall visit of school students. Students will collaborate in thinking as they witness the evidence and formulating ideas from the simulations.

### **OBJECTIVE**

- 1. To stimulate the interest and creativity power of the youngsters on the field of science and technology.
- 2. To bring the facility from the city to provinces for the benefit of less fortunate students.
- 3. To inspire other Inventor/Innovator in every locality to put their idea to daily application so as to stimulate the economic development.
- 4. To create awareness on Science and Technology and its application to the nation in preparation to global competition.
- To develop science-literate and science oriented citizenry in order to improve the quality of people of this nation.
- 6. To create values thru experiential learning in science.

#### SCOPE OF EXHIBITION

A wider than school syllabus scope of exhibition is designed to expose the students from what they are learning to what they could learn beyond that. A stage show presentation of amazing practical sciences exhibition will be running for one hour and a half (1 ½ hour) that includes ingress and egress of the viewer. There will be four (4) batches of viewer per day, a capacity of 300 student viewers per batch. Parents Consents is highly recommended to submit before viewing starts. Below were the topic of our discussion and the Dep Ed Science Curriculum related topic from K4-K10 and the corresponding objective.

No. of Item	Science Expo Topic	Dep Ed Science Curriculum Reference	Objective
1	1.Brain or Heart - Singing and Reciting (Physical Understanding of Using Heart and Brain) singing the National Anthem Experiment . Riding the Bicycle, Swimming, Chopstick	1.Parts and functions of the Human body – Grade 6 2. Coordinated Functions of the Reproductive, Endocrine, and Nervous Systems – Grade 10	1. How the major organs of the human body work together to form organ systems 2. Organisms as having feedback mechanisms, which are coordinated by the nervous and endocrine systems and mechanisms help organism maintain homeostasis to reproduce and survive
2	1.Flourescent Lamp – Agapito Flores vs. Dr. Eduardo San Juan Mercury Gas, recycling the bulb to no waste (Science Facts on Philippine Science History	Doing Scientific Investigations     Ways of acquiring knowledge     and solving problems – Grade 7	1.Scientific ways of acquiring knowledge and solving problems
3	1.Thermal Cooker – Rice Cooker w/out Power Chord ( Wasting energy burns Fuel to Climate Change)	2. Light and Sound, Heat and Electricity Conductors of heat and electricity Effects of light and sound, heat and electricity – Grade 5	1.The effects of heat and electricity, light and sound, heat and electricity
4	1.Egg Don't Crush, Scientific Experiment (Pulang Itlog) mixed Cultural upbringing 7,000 holes of Egg, Eggs Breath with Oxygen	Effects of Force on Objects     Shape, size and movement –     Grade 4     Effects of Force on Objects	1.Animals have body parts that make them adapt to land or water

### **EVALUATION REPORT**

Selected students will be asked to bring pen and paper for jotting down notes. They will also be held to evaluate the event on its contents and organizing performance. Relevant analysis will be established from the responses and a report to be compiled. This shall become one source of assessment for the company. Besides, related participating offices may also be provided a copy of the report as a part of their materials for research and development program.

### **TARGET GROUP AND SCALE**

The event is designed for Elementary (Grade 4 to 6) and High Schools students with the maximum capacity of 30,000 students in one division. Merging school viewers to form 2000 viewers per day per venue is an effective way of getting smaller school to comply with the numbers needed. It will be an open schedule until the consolidated groups of numbers of viewers have been identified.

### **COORDINATION AND TARGET DATE**

Official Division Coordinator will coordinate with the company and provide minutes of the meeting for proper information and guidance. Schedules of participating schools of this event will be determined by the Division Coordinator.

### VENUE

It require a social hall or a room that can accommodate 300 student per batch with a proper Audio/Video System for the on the stage performance.

### **ADMITTANCE**

A fee of Fifty (50.00 Peso) per student per admittance shall be imposed. However, all school teachers are invited on complimentary.

### **PROCEEDS**

A Php Fifteen(15 Pesos) per viewer proceeds goes to School Principal, Science Organization, Facilities and Utilities used on the said event.

### **PARENTS CONSENT**

Parents consent's is required to submit before the viewing starts for our reference. A generic format of parent's consent will be provided for every one's reference.
