International Training of Supreme Student / Pupil Government on Sustainable-Development Goals

Theme: Youth Building Peace

RATIONALE AND BACKGROUND

Much have been done for the Philippines to meet the eight Millennium Development Goals (MDGs) set by the United Nations. In Philippine MDGs Progress Report published by NEDA and UNDP, the Philippines was not on track in meeting three of the eight goals—the ones on maternal health, on combating HIV/AIDS, malaria and other diseases and on achieving universal primary education. The other millennium development goals are eradicating extreme poverty and hunger, promoting gender equality and empowering women, reducing child mortality, ensuring environmental sustainability and developing a global partnership for development. The terminal year of MDGs has set a challenge that provides a new benchmark for a rights-based post 2015 development agenda. More recently, the United Nations has release a new set of goals for all member countries through its 2030 Agenda on Sustainable Development Goals.

Society for Management Assistance of Professional Educators and Youth Related Issues in Training, Education and Resources – SMARTER Philippines Inc. believes that the youth and education sector can help societies in attaining their development goals provided that they are given the proper information, training and education. Education for Sustainable Development as a perspective in education encourages the educators and the youth to use human rights, sustainable development, peace, gender education, and other social reform lenses in viewing the world, creating the world, and genercating knowledge about the world. The Sustainable Development Goals can be used to redefine post 2015 development benchmarks.

Since 2014, Society for Management Assistance of Professional Educators and Youth Related Issues in Training, Education and Resources – SMARTER Philippines Inc. accredited member of the National Association of UNESCO Clubs of the Philippines, Inc. has organized various projects and programs for the youth and educators of the Philippines because of the need to engage them in community development and nation-building.

The 1st International Training was conducted in Baguio City, Philippines on October 17, 2014. It was a fitting tribute to youth volunteers in the preparation for the UN International Year of Peace. With the theme "The Role of Youth Volunteers in the

International Training of Supreme Student / Pupil Government on Sustainable Development Goals

Theme: Youth Building Peace

The Society for Management Assistance of Professional Educators and Youth Related Issues in Training, Education and Resources – SMARTER Philippines Inc. has organized and continued to initiate programs promoting the culture of peace, tolerance and respect for human rights directly targeting the youth sector as beneficiaries especially when the UN Millennium Development Goals was signed by the Philippines in the year 2000. Recognized as a unique group in society due to the many aspects of vulnerability they face while passing through major stages in their lives, the youth are considered as a potent force, a human resource and capital with enormous potentials for contributing to the evolving culture of peace and human rights.

Moving towards the 2030 agenda for sustainable development committed to fostering peaceful and inclusive societies and affirmed that sustainable development cannot be realized without peace and security. Sustainable Development Goals #16 aims to ensure responsive, inclusive, participatory and representative decision making which provides a policy framework and practical guidelines to improve the situation of young people, also encourages promoting the active involvement of youth in maintaining peace and security.

The Society for Management Assistance of Professional Educators and Youth Related Issues in Training, Education and Resources – SMARTER Philippines, Inc. wants to take the lead in cultivating conversations among the youth and educators to imagine new visions of rights-based, equitable and sustainable development. The Organization wants to provide training where themes relevant to sustainable development may be discussed in the hope that insights generated may be used to inform new development benchmarks.
